Price 6d. or 12 cts.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, APR. 22, 1863.
1863.

The year of our Lord eighteen hundred and sixty-three promises great things for British Columbia. During it between seven thousand and eight thousand British subjects will be raised from a state of serfdom to the enjoyments of the liberties and rights of free-men. A Colony possessing natural resources and advantages, probably unparalleled in the world, all things being considered, but which has been bolted and barred to commerce and enterprise, will have its gates unlocked and thrown wide open on their rusty hinges, and ships of all nations will be invited hither with such wares and merchandise as may find a market here, while in exchange we will send them away laden with coal and timber, the latter only requiring to be known in order to enjoy a world wide fame and create a world wide demand.

The restrictions by which internal trade and industry have been hindered and crushed being removed, and every reasonable and proper facility and encouragement being given, ship-yards will spring up, mills will be built, manufactures will be established, and general bustle and activity will supersede past despondency and present comparative inaction. Confidence will follow, capital will flow in, streets will be built up, and a quay, stretching from the Royal Engineer's Camp to Mr. Homer's saw mill, will present a scene of life and activity which will silence the croucher and astonish the Victorian.

This is not chimerical, nor is it prophetic. It is plain, sober common sense. It will not all come to pass within the year; but it will all date its beginning in 1863 and reach its consummation in due time. And then will those who have sown in faith and waited with patient endurance reap a rich reward, while those who have pointed the finger of silly scorn, who have slandered our people and derided our capital will look on with dismay and curse their short-sighted stupidity.

If such as have seen our hills of precious metal and valleys of fertile soil, who have observed our magnificent forests and boundless fisheries, and who have studied our geographical position as the inevitable terminus of the great interoceanic highway which is destined to be the thoroughfare of the world, to such as have made these subjects of deep thought no argument is needed to prove that we do not overestimate the destiny of this our adopted country.

Whether we look to mining or to agriculture the most encouraging prospect for the season now in the bud lies before us. One creek alone is now known to equal in mineral wealth all Cariboo as estimated or known a year ago. Williams, so far as yet ascertained, the richest creek in the country, will probably afford profitable employment for over a thousand people. Lightning, far more extensive, and believed to be equally rich, will be thoroughly prospected and made to yield up a portion of its as yet almost untouched treasure, while the numerous other Creeks, many of them known to be exceedingly rich, will swell the aggregate.

But although the gold is undoubtedly the most attractive it is not, in our estimation at least, the most important of our resources. Enormous as is our mineral wealth, of what real utility would it be to the country, as such, were it our only wealth? Men might indeed accumulate their fortunes and return to spend their days in idle affluence in their native land. But would that make a great country of British Columbia, a home for the surplus population of the old world? Or would such be a fitting destiny for the brave men who have overcome all the hardships and endured all the privations of a pioneer's life in this Colony? No. The gold deposits of British Columbia have a far higher destiny to fulfill.

It is to agriculture even in this land of gold that we must look for permanent wealth and satisfying success. And it is because we are convinced of this that it affords more satisfaction, inspires more hope, to know that in this branch of industry the summer of 1863 is destined to witness a great advance, than it does to hear of the richest strikes which have been or may yet be recorded.

On the Lower Fraser, extending from the Harrison to the Gulf of Georgia, very many farms are being taken up, not by the "land shark," but by men who have made up their minds to make a proper, and we feel persuaded, a profitable use of the ground. In the interior there is still greater activity. Along the entire line of road, on both routes almost

every available spot will be taken up this season. Seeds of all sorts are now passing up. Implements of husbandry are on the way, all indicating that at last our rich valleys and arable prairies will in some reasonable measure be made to supply the growing demand for agricultural produce which we have hitherto been obliged to draw from foreign sources and transport to the interior at the most fabulous cost.

P. SMITH & CO. Pemberton, Sept. 12th, 1862.

IMPORTANT TO WILLIAMS CREEK MINERS.

NOTICE IS HEREBY GIVEN that the undersigned will be prepared to furnish LUMBER of all descriptions suitable for Building, Flooring, Sluicing, Rifles, &c., on Williams Creek and Jack of Clubs Creek, on or before the fifteenth of May, 1863, without delay, as they are erecting a Water Power Mill that will turn out from ten to fifteen thousand feet of Lumber per day. We hope by giving this timely notice that we may secure the trade and greatly benefit those who may favor us with their patronage, as we will be prepared to furnish Lumber at greatly reduced prices, which all must acknowledge will be of great benefit to the business, as well as the Mining community, in a section of country where Lumber has up to the present time been sold at the enormous price of \$250.00 per thousand, owing entirely to the article having to be whip-sawed and labor commanding such high prices. With the use of this Mill we hope to place all parties wanting Lumber in possession of it immediately, thereby facilitating their mining operations greatly, knowing as all do that business as well as mining has been greatly retarded, from not being able to procure Lumber when mostly needed. And we hope with the aid of our Mill, together with the Williams Creek Ditch, which will be completed in time to furnish all with water in the Hill Claims and not interfere with the Creek Claims, also, the surplus waters of Jack of Clubs Creek and Ground Hog Lake turned over the divide into Williams Creek, will enable hundreds, if not thousands, who from the scarcity of water, without the aid of the above named ditches could not profitably do so, to work their Claims; also the great and beneficial influence which must inevitably accrue to all, both Hill and Creek Claims, from the great and costly bed-rock Flume, being at present partly constructed, for the purpose of carrying off effectually the tailings that must, with the advancement of mining on the whole Creek and hills on both sides of the Creek, naturally fill up and prove a great annoyance, owing to the scarcity of water, there not being a sufficient quantity most of the season running naturally in Williams Creek to accomplish the great work; but with the assistance of the surplus waters of Jack of Clubs and Ground Hog Lake waters flowing into Williams Creek and the great bed-rock Flume to carry everything through it, will not only prove of incalculable benefit to all, but place Williams Creek beyond the rivalry of any other mining locality in the Cariboo country.

EDWARD GRIFFIN, JOHN COE, Proprietors of Wm. Creek Saw Mill.

NEW WESTMINSTER, WEDNESDAY, APR. 22, 1863.

EASTERN NEWS.
Our Victoria exchanges contain one day's later
news from the seat of war, and three days later
from California, possessing, however, extremely
little interest. From the fact that no further al-
lusion is made to the previously rumored capture
of Charleston, we presume it may be taken for
granted that the report was without foundation.
The following are a few of the most interesting
items:—

WASHINGTON, April 7.—Three hundred and fifty
Federal cavalry went out yesterday on the
Lebanon Turnpike to Green Hill, and dashing
into the rebel camp, where there were a large
number of conscripts, killed five and took fifteen
prisoners with all their arms and horses.

HARTFORD, Conn., April 7.—The returns of the
election are in, excepting for this town. The
vote of the Senate thus foot up: Buckingham,
(Rep.) 38,309; Seymour, (Dem.) 35,836. The
Senate stands 14 Union and 7 Democrats. The
House 139 Union and 94 Democrats. Three
Republicans and one Democrat are elected to
Congress.

CHICAGO, April 8.—The President has issued a
proclamation extending the restrictions on com-
mercial enterprise to all the Southern States, ex-
cept Delaware, Maryland, Kentucky, Missouri,
excepting only 48 counties designated as West-
ern Virginia, and the ports of New Orleans, Key
West, Port Royal and Beaufort.

WASHINGTON, April 8.—Since March 22nd,
\$46,000,000 has been sent forward in payment
of troops in the field. There remains about \$15,
000,000 yet due. Hilton Head letters of recent
date state that the town of Pylaks, Florida, had
been taken by negro troops under Col. Montgomery.
They captured 15 rebels and returned to
Jacksonville, which place they subsequently
evacuated and burned.

Gov. Stanford (California) has received the
following despatch from Secretary Seward:—
"There is no threat or apprehension of foreign
aggression. The correspondence of maritime
powers is friendly as heretofore."

Brigadier General Wright has issued a procla-
mation from the Headquarters of the Department
of the Pacific, dated April 7th, 1863, in which
he refers to treasonable plots in the Pacific
States, and appeals to the people to stand up for
the constitution under which they have enjoyed
such privileges and blessings.

WHITELOCKE AND THE QUEEN OF SWEDEN.—
Henry Woodhead has published a work in 2 vols.,
bearing this title, which contains the following
account of Cromwell's Ambassador at the Swed-
ish Court:—
"Whitelocke arrived at Upsala the
20th December, 1653, and two days afterwards
was presented to the Queen. On entering the
room, Whitelocke put off his hat, and the Queen
put off her cap, after the fashion of men; and came
two or three steps forward upon the foot carpet.
Her habit was of plain grey stuff, her petticoat
reached to the ground, over that was a jacket
such as men wear, of the same stuff, reaching to
her knees; on her left side, tied with crimson
ribbon, she wore the jewel of the order of Ama-
ranta. A black scarf was about her neck, tied
before with a black ribbon, such as soldiers and
mariners sometimes used to wear; her hair was
braided and hung loose upon her head; she wore
a black velvet cap, lined with sable, and turned
up after the fashion of the country, which she
used to put off and on as men used to do their
hats. Her countenance was sprightly, but some-
what pale; she had much of majesty in her de-
meanour, and though her person was of the smaller
size, yet her mien and carriage were very
noble. Whitelocke soon won his way into the
Queen's favour; he had a quaint humour, which
amused her, and he seldom had an interview
without much "drollery" passing between them.
The republican sometimes managed in his own
way to convey a complement. One day they
were talking about the Sound dues, when Chris-
tina gave some broad hints that her navy was
not in an efficient state, because she was greatly
in want of money. Whitelocke turned the sub-
ject by saying that she did not waste much in
fine clothes. The Queen said she certainly did
not much care for dress, especially when she was
in the country; and Whitelocke replied that her
wearing plain clothes made them rich. Although
he was not empowered to offer subsidies, White-
locke held out an inducement for her co-opera-
tion about the Sound, by hinting that the castles
there should be put into good hands (meaning
her own) as soon as they were taken from Den-
mark. Oxenstierna observed that Sweden and
England were not equal in this matter, as the
former had already a free passage through the
Sound, and if she went to war with Denmark on
this question it would be for the sole advantage
of England; but Whitelocke said, very justly,
that if the ships of other nations could not fre-
quent her ports Sweden would derive little ad-
vantage from her own privileges. Before White-
locke had been a month in Sweden, the Queen
told him, as a great secret, of her intention to
abdicate. He thought at first that she was "drol-
ling" with him, but as soon as he found she was
in earnest, he told her a sort of parable of an
English gentleman, who had been persuaded to
give up his estate to his son. The writings were
prepared and the witnesses present to see the
deed legally executed. In the mean time the old
gentleman was smoking in the parlour, when the
son came in and desired his father to smoke in
the kitchen, that he might not spit in the parlour.
He obeyed in silence, and presently the son re-

THE BRITISH COLUMBIAN.

turned to say that the deeds were all ready for
him to sign. The old man replied that he had
changed his mind and intended to keep his estate.
On being asked the reason of this sudden altera-
tion he said that he was determined to spit in
the parlour as long as he lived. Christina was
amused at the homely story, but said that in her
case to be quit of the crown would be to spit in
the parlour."

THE DOCTOR FOR ALL
HOLLOWAY'S PILLS.
CHEST COMPLAINTS.
No diseases are more frequent, few more dangerous,
than affections of the respiratory organs. The first
symptoms of catarrh, bronchitis, and influenza, may
be radically removed by Holloway's renowned Pills.
They quickly remedy any temporary stagnation of blood,
relieve any overburdened veins, moderate the hurried
breathing, and enable the lungs to do their office with
ease and regularity. These Pills, by their purifying
powers, cleanse the blood from all impurities, and for-
tify the system against consumption, asthma, and simi-
lar complaints.
STOMACH, LIVER, KIDNEYS AND BOWELS.
From various causes these organs are frequently get-
ting out of order, and require some suitable medicine
to regulate them. Holloway's Pills effect this object
with wonderful celerity and certainty. They do not
disturb the system, or weaken the frame; they thor-
oughly invigorate the digestive organs. They gently
excite the stomach and liver, stimulate the kidneys to
perform their functions efficiently, and act upon the
bowels without griping or any other annoyance; ag-
ing, taken an hour before dinner, they cannot be equaled as
a "Dinner Pill," as they entirely prevent acidity, flatu-
lency, nausea, and biliousness.
WINDY OR WATERY DROPSY.
Whoever is afflicted with these complaints, should at
once have recourse to Holloway's Pills. They act most
energetically on the glandular and absorbent system,
purify the blood, and impart a vigour which age or other
causes may have temporarily taken away. They excite
the kidneys to increased activity, and thereby stimulate
the absorbents to remove the fluid already collected.
DISORDERS PECULIAR TO WOMEN.
There is no medicine equal to Holloway's Pills for
correcting the ailments incidental to females. They
may be taken with safety for any irregularity of the
system. As they remove all cause of malady, and so
restore, by their grand purifying properties, females of
all ages to robust health.

INDIGESTION, DYSPEPSIA AND SORE THROAT.
How all-important it is to check the first departure
from health! all may do so by taking Holloway's Pills
without risk or restriction. In all diseases affecting the
blood, nerves, and muscles, or in cases of fever, sore
throat, colds, coughs, asthma, and shortness of breath,
the earlier they are taken the better.
CHILDREN'S COMPLAINTS
Diseases incidental to children, such as feverish at-
tacks, scarlet fever, measles, and all diseases of the skin,
may be immediately checked, and soon cured, by these
purifying Pills, which may be reduced to a powder, and
given in doses of one, two, or three nightly, according
to the age of the sufferer. Holloway's Ointment is
soothing, cooling, and healing, and is better adapted
than any other remedy for all external ailments.
INDIGESTION, BILE AND SICK HEADACHES.
No organ in the human body is so liable to disorder
as the liver, and none is more apt, when neglected, to
become seriously diseased. When nausea, flatulency
or acidity on the stomach, warns us that digestion is
not proceeding properly, Holloway's Pills regulate every
function, give strength to every organ, speedily remove
all causes of indigestion, bile and sick headaches, and
effect a permanent cure.

LUMBAGO, RHEUMATISM AND GOUT.
In these diseases the blood is always in a highly in-
flammatory state; the stomach is also disordered, and
the liver and kidneys unnaturally torpid. A few doses
of these Pills, taken in time, will rectify all these sym-
ptoms by their cooling and purifying properties.
Holloway's Pills are the best remedy known in the world
for the following diseases:—
Ague Female Irreg- Retention of Urine
Asthma urities Scrofula, or King's
Bilious Complaints Fevers of all Evil
Blotches on the kinds Sore Throats
Skin Pits Stone and Gravel
Bowel Complaints Gout Secondary Sym-
Colic Head-ache tic Douloureux
Constipation of the Indigestion Tic Douloureux
Bowels Inflammation Tumours
Consumption Jaundice Ulcers
Debility Liver Com- Venereal Affections
Dropsy plaints Worms of all kinds
Dysentery Lumbago Weakness from
Erysipelas Piles whatever cause,
Rheumatism &c., &c.

NEW ADVERTISEMENTS.

CARIBOO

EVERY PERSON SHOULD KNOW
THAT THE
Shortest, Best and Cheapest
ROUTE

TO THE
CARIBOO MINES
IS VIA THE
YALE AND LYTTON
WAGON ROAD.

The chained distances on the Yale and Lytton Road are
as follows:
From Yale to Boston Bar, 25 Miles,
" Boston Bar to Lytton, 32 "
" Lytton to McLean's, 47 "
" McLean's to Junction of Wagon Roads, 19 "

Distance from Yale to Junction, 124 "
COMPARE THE ABOVE
with the following distances set down by Lillooet
Shippers:

From Douglas to Lillooet, 110 Miles
" Lillooet to Junction, 47 "
Dist. from Douglas to Junction, 157 "

THE JUNCTION
is the point at which the Wagon Roads intersect each
other, and where the Cariboo-bound traveller by the
Yale-Lytton and Douglas-Lillooet routes MUST meet.
It will, therefore, be seen by the above figures that the
traveller by YALE and LYTTON has

THIRTY-THREE MILES LESS TRAVEL
than if he went by the Douglas-Lillooet route.
Remember that on this Route there
are NO PORTAGES where Goods or An-
imals may be detained.

Messrs. DUBIG, LANE, BLACK, and other Carriers
of Merchandise, advertise to

Carry Freight from Yale to Lytton
\$20 per Ton Less
than is or will be charged on the Douglas-Lillooet route.

The New and Splendid Steamer

RELIANCE,
CONNECTS WITH THE VICTORIA STEAMER
ENTERPRISE,
and conveys her Freight and Passengers to Yale at
greatly reduced rates.

SHIPPERS
desirous of getting Freight through to Cariboo this
season are advised to
Shun the Douglas-Lillooet Route!!

and are referred to the testimony adduced in the
CHARTER CASE, wherein witnesses have stated upon
oath that **15, 20, or even 30 days** is a REASON-
ABLE TIME to convey Freight from Douglas to Lillooet.

Five Days Only are required to
Carry Goods from Yale to Lytton,
and
SHIPPERS ARE ASSURED

that if Freight is carried from Douglas to Lillooet for
Two Cents per lb.,

Carriers are prepared to Carry
FREIGHT FROM YALE TO LYTTON

WITH SAFETY AND DESPATCH, FOR
One Cent Per Pound!!!

All those who allow themselves to be crammed by
Douglaites this year need expect no sympathy from
the public if they get broke trying to get goods through
that route.

Remember the Cranford affair; and steer clear
of extortion and delays.

Travel the Yale and Lytton Wagon Road to
the Cariboo Mines.

New and Commodious HOTELS have been erect-
ed at convenient distances along the entire length of
the route, where First-Class Accommodations for both
man and beast are bestowed AT MODERATE RATES.

FOR CHEAPNESS, DESPATCH, EASE AND SECURITY
choose the YALE and LYTTON ROUTE in preference
to all others in British Columbia. mal 7
